

ES1100

Fragrance Delivery System

SPECIFICATIONS

Dimensions: 15" x 10" x 8"
Weight: 30 lbs.
Material: Mild Steel made in the USA
Description: This machine is designed specifically with events in mind and helps add a special touch to your large indoor event or venue. The ES 1100 Pro will disperse your choice of fragrance throughout your event to set the mood of your choice. With the help of the break-through Dry Wave technology we will also keep your event eco friendly and free of oil deposits or dampness from spritzers.
