## SPECIFICATIONS

Dimensions: 16" x 14" x 6"  
Weight: 21.5 pounds  
Material: 14 ga. Mild steel housing  
Description: This machine is designed to extend the coverage of an average SnowMasters snow machine by 70%. This will reduce the need for multiple machines in most scenarios. The 90 degree rotation of the oscillator gives you the perfect coverage for almost any application. The C-clamps are superb for attaching to 2" trussing. Weight Capacity: 75 pounds

### Electrical Requirements

100 Watts. 110v or 220v  
Plus the separate power supply for the machine(s) attached.

### Rotation

Factory set to 90 degrees, can also be ordered set to 15 or 45 degrees.

### Control Options

Stand alone: Run on the 800 mode  
Remote Control: 25' hardwire controller  
DMX: USITT Standard 4 channel  
Channel 1: On/Off  
Channel 2: Length of timer  
Channel 3: Duration of timer  
Channel 4: Speed Control

### Pick Points

SnowMasters standard C-clamps mounted to the top of machine. Bottom plate mounts to any of the SnowMasters standard hanging brackets.
